

ONE DAY WORKSHOP

CRITICAL DECISION MAKING...UNDER PRESSURE

In Law Enforcement and Security direct experience in handling terrorist acts, ongoing deadly actions and other violent encounters is inherently too limited to form an adequate foundation for theory or for application. At the best it produces an atmosphere that is of value in drying and hardening the structure of thought. The greater value of indirect experience lies in its greater variety and extent. History is universal experience, the experience not of another, but of many others under manifold conditions.

Workshop Purpose

A MINDSET SHIFT TOWARDS HOW WE LEAD AND TRAIN IS NECESSARY! To deal with rapidly changing conditions of conflict and violence individual responders must, be able to recognize threats, adapt and make timely decisions based on “*what’s happening now!*” And strategically and tactically deliver a Full Spectrum Response...

This workshop will develop individual frontline personnel’s ability to adapt, take initiative and make decisions under pressure, in the moment. Decision Makers are necessary for **EFFECTIVENESS AND SURVIVAL** on the street, and handling the conventional and unconventional problems and evolving threats we face.

Lesson Outline

The course presents the unknown through a series of Decision Making Exercises
